

Drive information to your customers or guests easily through Text Messaging. When a customer or guest sends your custom “keyword” to your Txt-My-Link phone number, an auto response with information and/or a link to your targeted webpage is generated. You select the keywords, the information and links.

- Smartphone and tablet users can click to open the link to easily access your information.
- Customers can retain your custom text link for future reference.
- Your marketing programs can be versatile and responsive with your custom keywords and links under your control.
- It's easy, effective and affordable!

WHY CONTACT WIRELESS?

- **Contact Wireless is a telecommunications carrier with direct access to the text messaging clearinghouse. No middleman.**
- **GSA vendor. Experienced in providing services to government agencies with government pricing.**
- **Easy to use.**
- **No software or equipment to install.**
- **Excellent customer service.**
- **In-house programming allows immediate attention to any technical issues or programming suggestions/changes.**
- **Your agency controls your messages, no third-party will be sending messages for your department.**
- **Product customization features are built-in.**
- **We have been in business for 25+ years providing critical messaging products and services. It is our business and our text messaging products are stand-alone web-based platforms instead of being incorporated into another software program as a side feature.**
- **We are the Messaging Experts!**

Starting At Just \$50 Per Month
